A TREMENDOUS PRICE REDUCTION

On January 7, 1926, Dodge Brothers, Incorporated, will announce a Tremendous Reduction in the prices of their Complete Line of Motor Cars.

These reductions will apply on all cars bought after midnight, December 15, 1925.

When the new prices are made known on January 7th, the full amount of the reductions will be immediately refunded to all purchasers since December 15th. These revolutionary reductions are made possible by a recently completed ten-million-dollar expansion programme --- new buildings and equipment that will nearly double the capacity of Dodge Brothers' factories in 1926.

There is no change in the policy upon which Dodge Brothers established their leadership eleven years ago --- the policy of constant improvement without yearly models.

Merry Christmas!

"Merry Christmas!"
What does the greeting mean to you when it falls so easily from your lips?
What does it signify when you are its recipient?
Does your greeting carry with it that warmth of feeling that shows that it gushes from a spirit of love and good will?
Or is it the empty service of the lips, breathing the pulseless echo of other voices of gladness around you but empty of the spirit?

Things of material value any one can buy who has the silver and the gold.
And to him who can not reciprocate in kind, Christmas giving often carries with it a sting instead of the joy that rightfully attends the season.
So with all of our giving let us give of the spirit—that intangible something that money can not buy yet increases with our prodigality of giving!
Let us give forgiveness for the erring one; there is a universal field for our beneficence.

Let us give encouragement to the failing one; all have need of courage and strength.
Let us give patience to the frail one; there is much of frailty in all of us that those who love us must endure.
Let us give faith in the better things; for "faith is the evidence of things unseen," and without faith there is no vision.
Let us give hope to him who is despairing; for he labors in vain who works without hope.
Let us give love; for without love all our giving is vain!

From this treasure store invisible, ensconced in the heart, let us give with a prodigal hand.
The hand of poverty—if the spirit is there—may bestow without stint! The wealthy can not buy it with all a Croesus's gold.
Only kindred hearts, bound in the consanguinity of love, can give and receive that which taxes none and enriches all.
Put the spirit in the greeting. Then indeed will your salutation be in all of its transcendently glorious significance—
"Merry Christmas!"

MISS LUCILLE BOON HONORED.

That Hondo's youngest set is coming into its own was evidenced Saturday afternoon when Mrs. Earl Boon entertained some of the "sub-debs" in a merrily party, honoring Miss Lucille Boon's birthday anniversary.
After the matinee, the guests repaired to "Carle's" where they found places about a long table whose flaming red scarf and centerpiece of lighted Christmas tree represented the holiday season. Each guest extinguished the crimson candle which was her place favor, making a wish as she did so. Mrs. Boon, assisted by Mrs. Laura Welhausen and Mrs. Bessie Ney, served hot chocolate and individual cakes iced in white and red to the following: Misses Dorothy Moffield, Jonelle Rothe, Cora Wright, Bernice Moffield, Regina Nester, Anna Laura Welhausen, Mary Ruth Cameron, Mildred Roberts and the honoree.

MEETS.
Pursuant to the published order of last week, a godly number to the inclement weather of the night and turned out to the meeting.
Two propositions, entirely different in themselves yet both having to do with the oil field developments under way here, came up for discussion. The consideration mostly informal and the drift of opinion all seemed to be in one direction. It was agreed that a good road from Hondo to the oil well, an immediate and vital need. Accordingly, the President, with consent of the assemblage, appointed Messrs. H. R. Bailey, O. J. R. Dr. W. H. Smith, J. M. Finger, R. J. Reilly, as a road committee to confer with the Commission Court with a view to securing favorable action towards construction of such a road. The committee also empowered to solicit contributions sufficient to complete the project if necessary.
It also seemed to be the consensus of opinion that Hondo is the terminus for an oil pipeline and accordingly Messrs. L. E. Heath, Brucks, H. R. Bailey, Jack P. man and O. H. Miller were appointed as a committee to arrange for a tentative right-of-way and a minus site for the pipe line, to offer their assistance to any line company that might wish to consider the matter of building a pipe-line.
A number of visitors were present and several addressed the meeting, among them being several men and representatives from the traffic and the engineering departments of the Southern Railway. All the visitors were enthusiastic over Hondo's oil prospects and urged immediate action in looking to better transportation facilities to and from the oil field.

HOLIDAY GREETINGS.

We take pleasure in calling the attention of our nearly six thousand readers to the holiday greetings of Hondo's business people as printed on the center pages of this issue.

It is a good will offering to their patrons and friends sincerely expressed, and they hope it will be received in the same spirit in which it is offered.

With the assurance of their appreciation for your patronage during the year just closing, you can safely accord them your business in 1926 with the confident assurance that you will receive full value for your money and the best service they can give you.

Let's all co-operate in a business way and so make Hondo a better trade center in 1926 than it has ever been before.

Speaking for the paper itself, we are grateful for the patronage accorded us by the business people, and in return have tried to give prompt and efficient service. It would take twelve dollars to send a postal card to each one of our 1200 subscribers—and you would still have the labor of writing and addressing them. The man who paid a dollar to place his holiday greetings in this special advertisement reached twelve subscribers and sixty potential readers for each penny spent—and without any labor on his part. We say this in passing merely to emphasize the economy and efficacy of newspaper advertising when it is desired to reach the buying public.

Remember this in 1926 and both your business will prosper and your town profit from a more efficient, because of a better financially supported, newspaper service.

In the meantime, let us again repeat the never too often repeated—
"Merry Christmas!"

Another "Bull" Durham advertisement by Will Rogers, Zigfield Pollock and a team of leading American humorists. More coming. Watch for them.

America is Safe with "Bull" Durham

A gang of Scientists left on a Boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Eels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you don't know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.
